

# DROPBOLTS

Trimec's range of dropbolts represent true engineering innovation, design excellence and superior quality customers have come to expect and demand from Trimec. Designed for use on swing-through, double action doors these dropbolts are ideal for applications where an electric strike is impractical. A stylish range of stainless steel surface mount housings and accessories are available making these dropbolts an attractive, unobtrusive solution for glass door applications.

#### High Security

*Bolt is deadlocked in the extended position.*

#### Multiple Orientation

*Trimec dropbolts will work horizontally or vertically*

#### Power To Lock / Power To Open

#### Continuously Rated Solenoid

*Solenoid can be continuously powered*

#### Tamper Proof

*Lock cannot be defeated by slipping a metal object between lock and striker plate.*

#### Intelligent Electronics (TB25, TB38, TB25KO)

*These intelligent bolts will attempt to re-close the bolt 8 times, allowing time for swing through doors to settle into the closed position.*

#### Built-in Monitoring

*Bolt position monitor, and door position monitor. (there is no need to install a separate read switch)*

#### Thermal Protection

*In the event of solenoid overheating, a thermal fuse will operate, eliminating any fire risk.*
